CIRCULAR LETTER

Listed B3 Participants

Re.: **EntryPoint - Deactivation of the Trading Algorithm Performance Optimization Message Control Policy**

As part of the continuous enhancement process for trading systems and in light of growing demand for low latency, B3 launched binary gateways at the end of 2023 for the derivatives segment and at the start of 2024 for the equities segment.

For this reason, the TF900, TF901, TFAZ99 and TFBZ99 test instruments, which participants could use to optimize the performance of their trading algorithms through constant order entry, will be deactivated as of **August 5, 2024** and, therefore, order entry to this end at the FIX Entrypoint trading gateways or binary gateways will not be allowed.

We also inform you that the commercial policy related to this activity, announced in Circular Letter 001/2021-VNC, dated July 15, 2021, will be discontinued.

Further information can be obtained from B3 Services through the following contacts: Trading Support or Trading Services by telephone on +55 11 2565-5021/5522 or by email at tradingsupport@b3.com.br or trading@b3.com.br.
