

Change to the scheduling process of court-ordered auctions

Intended for segment participants: Listed.

Summary: As of November 3, 2026, court-ordered auctions will be scheduled exclusively through the Integra Judicial Blockages Platform, except in cases of asset movement freezes and blocking imposed by B3.

As of **November 3, 2026**, there will be a change to the scheduling process of court-ordered auctions. They will be scheduled exclusively through the **Integra Judicial Blockages Platform**, except for requests for investors facing asset movement freezes and blocking imposed by B3 (where the assets are included in portfolios 2198-9, 2199-7 and 2193-8).

The Integra Bloqueios Judiciais Platform allows for greater automation of activities related to the freezing and unfreezing of assets by court order, arbitration or at the request of an administrative authority, as well as in the scheduling of auctions for the monetization of listed securities, as disclosed in Circular Letter 172/2020-PRE, dated December 10, 2020.

For B3 OTC segment participants, the amounts related to the use of the Integra Platform service will be fully deducted from the calculated Monthly Usage amount for the same billing month. If the amount related to the use of the Integra Platform service is greater than the calculated Monthly Usage amount, the resulting difference will be charged according to the information available at [Integra Bloqueios Judiciais | B3](#).

With the automated process carried out through the Integra Plataforma, **Custody Agents** will enjoy the following benefits, among others:

- Autonomy in activities related to the freezing and unfreezing of assets by court order, arbitration or at the request of a competent administrative authority;
- Mitigation of operational risks; and
- Faster scheduling of court-ordered auctions for monetization of listed securities.

Access to **Integra Bloqueios Judiciais Platform** can be requested through B3's Services Contracting by telephone on +55 (11) 2565-5084 or by email at contratacao@b3.com.br.

Specific situations involving investors with asset movement freezes or blocking by B3 will continue to be handled through the current process, namely, PNPs must send the request by email for analysis by the relevant B3 departments. If there are no impediments, the auction will be scheduled by B3.
